

Catapult Learning

Summer Journey

Accelerate Learning

From Lost Learning Time to Academic Gains

Summer Journey offers robust educational opportunities and engaging activities that allow students to learn throughout the summer while also having fun. Our program addresses academics, life skills, and mindfulness by incorporating instruction, enrichment activities, and family support elements.

A comparison of pretest and posttest iReady scores in a large, urban market during the summer of 2018 revealed positive gains, with students' average scores increasing by 9.3 points in reading and by 8.5 points in math.

Choose a Summer Program That Fits Your Needs

Designed to accelerate learning, our program includes everything you need:

- 1 Proven curriculum designed to maximize Academic Learning Time
- 2 Research-based programs that support all learners with developing and strengthening essential foundational skills
- 3 Blend of systematic and explicit instruction with hands-on, project-based experiences to reinforce foundational skills and prepare students for the fall
- 4 Flexible schedule options that provide a combination of instructional intervention and enrichment

Option A

30–40 hours of programming

Option B

45–80 hours of programming

Option C

80–150 hours of programming

Summer programs have the ability to not only mitigate learning loss but to also close achievement gaps for at-risk students.

Total Hours of Summer Journey Programming

Address Unfinished Learning

Reduce Achievement Gap

Targeted Instructional Support for All Learners

Catapult Learning's research-based standards-aligned Achieve™ literacy and math Summer Journey programs support all learners by reinforcing foundational skills while developing strengths. The program's systematic and explicit instructional model reinforces essential skills to close academic gaps, so students return to school ready to excel!

Literacy Intervention

Support literacy skills and build confidence and comprehension skills with personalized, literacy-focused instruction in reading, writing, speaking, and listening. Our AchieveLiteracy™ Summer Journey programs provide engaging, small-group instruction for all students. This is achieved through explicit instruction across the **Big 5**.

Big 5

- 1 Phonics
- 2 Phonological Awareness
- 3 Fluency
- 4 Comprehension
- 5 Vocabulary

Math Intervention

Our AchieveMath™ Summer Journey program helps struggling learners build confidence and improve their math skills—from basic concepts and computation to problem solving, data collection, geometry, and algebra.

Life Skills

Designed to teach developmentally appropriate skills connected to life competencies, Life Skills is an important component of all Summer Journey programming. Through academic and family counseling, mental health counseling, family workshops, and 1:1 wellness or academic check-ins, families remain engaged and up-to-date on their child's progress.

Financial Literacy

Our hands-on Financial Literacy program is an engaging way to provide students with problem-solving and decision-making skills related to finance, including managing and making decisions about personal finances, budgeting, and investing. Each course includes six units that cover topics such as earning, spending and saving, investing, and managing credit and risk.

Develop Students' Critical-Thinking and Problem-Solving Skills

Catapult Learning's turnkey **STEAM**, and Robotics, and Financial Literacy enrichment programs provide engaging ways for teachers and students to focus on the development of problem-solving and critical-thinking skills.

Catapult uses the Engineering Design Process as the foundation for our enrichment programs, which are designed to develop 21st-century skills and Habits of Mind.

The **Engineering Design Process** empowers students to think critically and learn independently inside and outside the classroom.

Our standards-aligned, project-based enrichment programs combine an inquiry-based curriculum with hands-on activities to build the bridge between classroom learning and real-world application.

What is STEAM?

- 1 **S**cience
- 2 **T**echnology
- 3 **E**ngineering
- 4 **A**rts
- 5 **M**athematics

Catapult's program is a true integration of all four subject areas.

Turnkey Yet Flexible Program

All programs include teacher training (use your own staff or use our locally hired teachers), teacher manuals, curricula, student resource books, and virtual classrooms where applicable.

Make Your Summer School a Success with Summer Journey

Developed with flexibility in mind, Summer Journey accommodates the academic, social, and emotional needs of students as well as the scheduling and financial needs of public and private schools and districts. Our program supports students in grades K-8 with literacy and math intervention, plus academic enrichment that provides additional learning through project-based opportunities in STEAM and Robotics, or Financial Literacy.

Program Highlights

Turnkey program with easy start-up

Flexible implementations

Customized learning solutions dedicated to academic achievement and confidence building

Local instructors

Your Teachers or Ours?

Our program can be taught by Catapult Learning certified teachers or your own teachers.

Either way, our program includes Catapult staff to support educational quality as well as management tools to ensure fidelity.

Sample Summer Journey

3 HOURS /DAY PROGRAM

- 50 minutes: Math Instruction
- 50 minutes: Reading Instruction
- 50 minutes: Enrichment
- 30 minutes: Life Skills & Mindfulness

Sample Summer Journey

4 HOURS /DAY PROGRAM

- 70 minutes: Math Instruction
- 70 minutes: Reading Instruction
- 50 minutes: Enrichment in one subject
- 30 minutes: Life Skills & Mindfulness
- 20 minutes: Recess

Sample Summer Journey

5 HOURS /DAY PROGRAM

- 70 minutes: Reading & Math Instruction
- 70 minutes: Robotics
- 60 minutes: Enrichment
- 30 minutes: Life Skills & Mindfulness
- 30 minutes: Recess
- 40 minutes: Breakfast/Lunch

About Catapult Learning

Catapult Learning, a division of FullBloom, provides intervention programs for students and professional development solutions for teachers in K-12 schools, executed by a team of experienced coaches. Our professional development services strengthen the capacity of teachers and leaders to raise and sustain student achievement. Our Intervention programs support struggling learners with instruction tailored to the unique needs of each student. Across the country, Catapult Learning partners with 500+ school districts to produce positive outcomes that promote academic and professional growth. Catapult Learning is accredited by Cognia and has earned its 2022 System of Distinction honor.
